INSTITUTE OF ENGINEERING & MANAGEMENT, KOLKATA

SALT LAKE

(Affiliated to UEM Kolkata and Approved by AICTE)

Degree: BCA, Stream: BCA

Term – I , First Semester Examination, September - 2024

Subject Code: BCACC101

Subject Name: Introduction to C Programming

Full Marks: 30 Duration: 1 Hour

Part - A
Attempt 5 questions
Each question carries 2 marks (2 × 5)

1. Define what is algorithm. 2

or

Define flowchart. 2

2. State the basic structure of a C program with an example. 2

or

Explain Token with example. 2

3. What is the function of s++ and ++s? 2

or

What is the use of the '==' symbol? 2

4. What will be the output of following program ? 2

```
#include <stdio.h>
void main(){
   int a=0;
   a=5||2|1;
   printf("%d",a);
}
```

or

What will be the output of following program ? 2

```
int main()
{
   int ok=-100;
   -100;
   printf("%d",ok);
   return 0;
}
```

5. Summarise some problems where repetition of calculation is required. 2

or

Summarise the syntax of for loop with an example. 2

Part - B
Attempt 2 questions
Each question carries 5 marks (5 × 2)

6. Create a C program to swap two integer values without using 3rd variable. 5

or

Create a C program to read an integer value from the user. Then calculate the sum of digits of that number. 5

7. Explain built-in function in C? 5

or

Why n++ executes faster than n+1 ? 5

Part - C
Attempt 1 question
Each question carries 10 marks (10 × 1)

8. Design a C program to take total marks of a student & determine his/her division using following conditions: -
if marks is >=600 then 1st divisions or if marks <600 but marks>=450 then 2nd division or marks<450 but marks>=300 then 3rd divisions. Otherwise fail 10

or

In an examination, if a student score above 599 then his/her grade will be A. If marks is 599 or less, but more than 449 then grade will be B. If a mark is 449 or less, but more than 299 grades will be C. Otherwise grade will be F. Develop an application using C to model above problem. 10
