Part – II (CAT)
Part A- Descriptive English
Attempt any 1 question
Each question carries 3 Marks. (3 × 1)

Directions (12-13): Read the following passage carefully and write a precis of it with a suitable title.

12. In the modern world, the rapid development of science and technology has transformed human life in unprecedented ways. From communication to healthcare, every aspect of our lives is influenced by scientific progress. However, this transformation has come at a cost. The increasing use of machines has led to unemployment in some sectors, and the over-reliance on technology has reduced physical activity and face-to-face interaction. Moreover, environmental degradation is a pressing issue as industries grow unchecked. While technology has made life more convenient and efficient, it has also introduced new challenges that require responsible and ethical management. The future depends on how wisely we use the tools that science has given us. **3**

13. Good manners are not only an ornament in life but also a key to success in various spheres. A person who is polite and considerate towards others is more likely to gain their cooperation and goodwill. In professional settings, good manners enhance one's reputation and open doors to new opportunities. In contrast, rudeness and arrogance often result in conflict and isolation. Manners reflect one's upbringing and values, and they play a crucial role in shaping how others perceive us. They cost nothing but bring much gain. In a society where people interact constantly, good manners serve as the lubricant that keeps the social machinery running smoothly. **3**

Part B- English Grammar
Attempt any 2 questions
Each question carries 2 Marks. (2 × 2)
