INSTITUTE OF ENGINEERING & MANAGEMENT, KOLKATA

SALTLAKE

(School of University of Engineering and Management, Kolkata)

Degree: BCA, Stream: BCA

Term – I, Third Semester Examination, August – 2025

Subject Code: BCACC303

Subject Name: Python Programming

Full Marks: 30 Duration: 1 Hour

Part – A
Answer any 5 questions out of 6
Each question carries 2 marks (2 × 5)

1. Define List in Python. Give example of list containing 4 string type data. **2**

2. Write the difference between Tuple and List. With the help of an example show how to create a list and tuple. **2**

3. Write the output of the following: **2**

```
a = "Hello, World!"
print(a[3:6])
```

4. Explain the syntax of **range()** function in a loop. Write the syntax of **for** loop using **range()** for printing 10 numbers. **2**

5. Write a python program to display even number from list of elements. **2**

```
List=[1,2,3,4,5,6,7,8,9,10]
```

6. Find the output of the following: **2**

```
year = 2000
if (year % 100) = 100:
    print ('Probably leap year')
else
    print (Not a leap year')
```

Part – B
Answer any 2 questions out of 3
Each question carries 5 marks (5 × 2)

7. Write a program to get the principal amount, rate of interest, and year from user and find both simple and compound interest. 5

8. Write a program to print Fibonacci series using loop for N-series. Use of built-in function is prohibited. Take value of N from the user. 5

9. Write a program to calculate GCD of two numbers. Take both number as user input. Print the common factor of the two numbers as well. 5

Part – C
Answer any 1 question out of 2
Each question carries 10 marks (10 × 1)

10. Write a python program using loop to print the following pattern: 10

```
    *
   ***
  *****
 *******
*********
```

11. Write a python program to calculate the average temperature of a year. User can provide the monthly temperatures either in °C or in °F. Show the result both in °C and °F. 10
